

Volante SEPA Instant Payments as a Service

Start realizing the business opportunities of instant payments with end-to-end processing and connectivity to RT1 and TIPS

SEPA Instant Payments – Open For Business

European payment service providers are fortunate to have multiple options for instant SEPA credit transfers. To ensure the full deployment of instant payments across the euro area by the end of 2021, the ECB requires all automated clearing houses offering instant payment services to migrate their technical accounts from TARGET2 to TIPS (Target Instant Payment Settlement).

Connectivity is only the beginning. Banks and PSPs must also consider how they can differentiate beyond basic service models. They need to ensure 24x7x365 real-time operations across the end-to-end processing lifecycle. And they have to take into account intraday liquidity demands, ISO 20022 compliance, and impacts to existing payment systems. It's time for instant payments processing as a service in the cloud. Volante's service eliminates the drawbacks of legacy approaches, allowing banks to join the instant payment revolution quickly and at low cost.

300+

APIs in the cloud for open banking and PSD2 compliance

Benefits of Volante SEPA Instant Payments as a Service

Key Features

- One solution for all instant payments needs
- End-to-end payment processing and certified network connectivity for RT1 and TIPS, pre-built and ready to use
- ISO 20022 native
- Ability to tailor workflows through zero-code configuration
- Automated compliance
- Easy to use UI, 360° view of payments, real-time dynamic dashboard and reporting on operational flows

Business Benefits

- Reduce TCO by nearly 40% relative to traditional on-premise installations
- Shift capex to opex
- Pay only for what you use
- Reduce internal IT resource dependency and utilization
- Rapidly release new value-added service customer experiences
- Deploy for retail and commercial use cases
- Accelerate customer onboarding
- SEPA, SEPA instant payments, TARGET2, SWIFT, gpi, and all major European payment schemes

“ The combination of rich VolPay functionality together with the flexibility to integrate the solution easily to our existing platforms without the need to build additional infrastructure, is an ideal value proposition.

Gilbert Coleiro, CIO FIMBank on VolPay as a service for SEPA

Volante SEPA Instant Payments as a Service

Integration and Extensibility

- 300+ APIs in the cloud for open banking and PSD2 compliance
- Easily connect into the extended cloud financial services ecosystem
- Rapidly integrate into any bank environment with standard interfaces for bank systems, including core, sanctions and fraud
- Implement interfaces across public and private cloud boundaries, with zero coding

Technology for Continuous Operation

- Active-active, zero downtime ensures conformance to instant payments SLAs
- Real-time services always-on, 24x7x365
- Best-in-class performance, benchmarked to 46 million transactions per hour in the cloud
- Handle volume spikes with ease

Security and Data Privacy

- Continually updated with the latest security features
- Bank IT departments no longer need to apply patches manually
- All data owned by bank and under bank control
- Deployable across multiple data centers in Europe to ensure compliance with data location and privacy requirements

Deployment Options

- Volante cloud (Microsoft Azure)
- Bank public or private cloud
- Hybrid models, allowing separation of data and applications between cloud virtual and bank physical locations

Why Volante and VolPay for SEPA Instant Payments as a Service?

- ✓ **Proven in instant payments** – first-ever US RTP transaction initiated through VolPay, with BNY Mellon
- ✓ **Proven in cloud managed services** – first SEPA managed service on Azure
- ✓ **Proven implementation track record** – complex payments solutions implemented in 90 days or less

BNY MELLON

“ We are creating the building blocks for an integrated payments ecosystem both for today’s needs and for the next generation...working closely with trusted and innovative fintech providers such as Volante

Saket Sharma, CIO, BNY Mellon,
originator of the first US RTP payment

Microsoft

“ Volante Technologies...delivers significant advantages to clients who are looking to optimize the use of cloud technologies and benefit from a reduction in hardware and software costs

Janet Lewis, Vice President of Worldwide
Financial Services, Microsoft
